In connection with the conflagration a shocking report reached this city yesterday, to the effect that during the progress of the destructive element, a white woman and her daughter were seized and ravished by a party of negroes, and that one of the unortunate creatures had since died, while the other was not expected to live. ncrease in specie. Decrease in other legal tenders. Increase in deposits Increase in circulation. The exports of specie from New York to foreign ports last week amounted to \$1,625,498 against \$880,223 for the corresponding week last year. The following will show the total exports of specie from

New York to foreign ports from January to April 18 in the years noted: \$18,819,272 1859 7,960,245 1858 6,994,705 1857 5,212,524 1856 15,420,535 1855 15,985,080 1854 12,908,782 1853 2,500,000 1852 7,174,646

The Treasury office in New York reat \$1 15@1 18. ceived last week \$2 555,000 for customs, but as the office was a seller of gold part of the time, the bank average of specie is rather higher than the previous week. The export of the week was large, \$1,625,498, but nearly the whole of this was in Califor, nia gold and silver bars-only three shipments of \$100,000 each being in gold coin. The advance on bills on London to 110 per ree, \$2 20. cent, however, induces the calculation, among some of the bankers, that the shipment of coin, in the shape of double engles, will be gradually increased. The New

York Times of the 20th inst. says: The general trade of the week, notwithstanding the closeness of money in Wall street, was, in the main, satisfactory. The | \$2 25. drygoods interest is not active, but the falling off in demand is more than compensated by the large business doing in the great staples of general foreign and domestic merchandise.
